

B001759 Arbitrary Waveform Generator

		B001759	Tektronix, Inc
item	ea		
1	1	Tektronix Model #AWG7051	\$40,320.00
		<ul style="list-style-type: none"> 1 channel arbitrary waveform generator (refurbished) Certificate of traceable calibration 5 GS/S, 8/10 Bit, 32M point Ability to run up to 4000 sequences from a selection of up to 16,000 waveforms Sequences can be repeated up to 65,000 times or in an infinite loop Runs on a Windows XP platform, and has full pc functionality Can import waveforms from third party programs or Tektronix DPO7000 oscilloscopes Two digital markers are available to allow for mixed signal generation Rise time (20% to 80%) High bandwidth, 45ps (at 1.0 Vp-p) Direct, 75 ps (at 1.0 Vp-p) Normal, 350 ps (at 2.0 Vp-p) Resolution, 10-Bit (no marker output) or 8-Bit (2 ch markets available): 	
		Each channel selectable	
		<ul style="list-style-type: none"> Sampling frequency, 10 MS/s to 5 GS/s Sequence control: repeat count, wait for trigger, go-to-n and jump Sequence repeat counter: 1 to 65,536 or infinite Sequence length: 1 to 4,000 steps Number of waveforms: 1 to 16,000 Waveform length: 2 to 32,400,000 points (or 2 to 64,800,000 points) in multiples of 64 	
2	1	Tektronix Model #AWG705101	\$6,592.00
		<ul style="list-style-type: none"> 64M record length extension – all channels 	
3	1	Tektronix Model #AWG705102	\$1,977.60
		<ul style="list-style-type: none"> 5.8 GHz output bandwidth extension, limits amplitude, disables offset & analog filter function 	
4	1	Tektronix Model #AWG7051R3	\$2,128.00
		<ul style="list-style-type: none"> Repair service 3 years (including warranty) 	
		Freight	\$118.00
		TOTAL	\$51,135.60
		Business classification	
		FOB	Destination
		Estimated delivery	4 weeks ARO
		Terms	N30
		Reference number	MP2085556
		Warranty	3 year
		Quotation effective until	20-Jun-2008
BID AWARDED TO TEKTRONIX, INC AS THE LOWEST BIDDER MEETING SPECIFICATIONS
