

Senate Candidates from the College of Nursing (3 seats available)

<i>Name</i>	<i>Classification</i>	<i>Personal Statement</i>
Chris Finch	Senior	I would like to continue being a college of Nursing senator. I hope to bring new ideas to this college and help make this a better place for our students and surrounding community. Thank you for your time.
Reem Musa	Sophomore	As a senator for a year and a half, I have learned much about all the ways SGA can help the student body, and especially my peers in nursing. I am very open to listening to everyone's concerns and coming up with solutions to problems in order to improve UAH. I believe that my past experience in SGA can help me improve my future performance as a senator.
Michele Tisler	Junior	Hi! My name is Michele Tisler and I am a junior in the College of Nursing. I have enjoyed working as the College of Nursing Senator for the 2013/2014 year. I have worked hard to create relationships within the College of Nursing with the administration and students alike. I have brought resolutions to the senate pertaining to adding a Joint Undergraduate Master's Program to the College of Nursing, as well as removing the class designation requirement for registration to upper division students.

These resolutions are currently under discussion. I have had the honor of being the PR and Marketing Chair for SGA and helping to get the word out about SGA and events that SGA has hosted and participated in this past year. I would love to continue to serve as your College of Nursing senator for the 2014/2015 year as well. Thank you.
