

**Senate Candidates from the College of Science
(5 seats available)**

| <i>Name</i> | <i>Classification</i> | <i>Personal Statement</i> |
|-----------------|-----------------------|---|
| Haley Davis | Junior | Through my work with SGA this year on the Executive Board as The Big Event Coordinator, I have witnessed first hand the impact SGA programs can have on our campus community. As a Senator for the College of Science, I would give voice to the issues most relevant to students, and work to advance those initiatives to successful resolution. I have built strong working relationships with faculty and staff in my work on various projects on campus. I am a Junior here at UAH, and have spent much time with my fellow College of Science students. I would be happy to represent these students and help voice their opinions if elected a College of Science Senator. |
| Graham Kirchner | Sophomore | As a current SGA senator I hope to be re-elected in order to continue my efforts improving the UAH campus and making known SGA's presence. Having already served in SGA, I am fully prepared to educate new senators and keep the momentum of last year flowing. I am responsible for several resolutions for the improvement of campus and would like to see all those through to completion. I also serve as a Co-Founder of SGA's First |

| <p>Nhu-An Nguyen</p> | <p>Senior</p> | <p>Council initiative and would like to continue working to further develop that program with possible inter-campus connections. My specific goals for next semester include a focus on the needs of the College of Science and being constantly available for COS majors to express their concerns so that they may be properly represented in SGA Senate. For more information on my goals and philosophy, or to express a concern feel free to contact me: gk0004@uah.edu. I would like to be re-elected to the SGA College of Science Senate because I want to be a part of the many positive changes in academics and student life that are taking place on our campus. Being a part of UAH and its College of Science is something I'm very proud of and feel I owe much of my success to, academic or otherwise. I feel that the best way I can give back is to represent the College of Science in the UAH SGA Senate and continue to serve.</p> |
| <p>Komal Patel</p> | <p>Junior</p> | <p>Working with and being a part of the Student Government Association has been a wonderful experience for me. It feels really good to be known as a contributor to some of the great things that have evolved on our campus, and I would love to continue being a part of this organization and do more to help our campus grow.</p> |
| <p>Harsha Srikakolapu</p> | <p>Senior</p> | <p>Hi, my name is Harsha Srikakolapu. I am interested in running for College of Science Senator. I have been serving as your College of Science Senator and Student Organization Committee Chair, since last year. I, along with my committee, have led the RSO Roundtables every month. I have enjoyed my time as a senator thoroughly, and want to continue that next year. This past year, I have presented resolutions regarding the campus recycling initiative, helped to inform student organizations about opportunities on campus, and helped to increase both retention and recruitment for many organizations. SGA</p> |

has built up a great foundation this year, and I am very proud to have been part of it this year. I hope that you will vote for me. I encourage everyone to take their time and vote in the upcoming elections. Thank you for your consideration and votes.
