

THE UNIVERSITY OF ALABAMA IN HUNTSVILLE

NANOMATERIALS SAFETY MANUAL

Number	07.07.09
Division	Research and Economic Development - Office of Environmental Health and Safety
Date	September 1, 2013; Reviewed and Revised September 29, 2022
Purpose	The purpose of this manual is to provide guidance to maintain health and safety while working with materials.
Policy	Researchers and staff should minimize worker exposure by using the hazard control measures and best practices identified in this manual. The Principal Investigator (PI) must create a Safety Plan that outlines safe work practices for research involving nanomaterials. After review and approval by the Office of Environmental Health and Safety (OEHS), the Safety Plan will be communicated to all affected research personnel working on the project or within the same laboratory area.
	<u>Nanomaterials Safety Manual</u>
Review	The Office of Environmental Health and Safety (OEHS) is responsible for the review of this policy every five years (or whenever circumstances require).
